

Exude is closely monitoring the information regarding the spread of the 2019 Novel Coronavirus (COVID-19). As your dedicated partner, **we are committed to providing you with resources and information** so that you feel well prepared and informed. The resource below contains information about your Horizon medical coverage.

What if I need to be tested?

Regardless of your medical plan selection, Horizon will waive all deductibles, copays, and coinsurance for in-network testing for the COVID-19 virus.

What if I need maintenance medications?

Horizon is currently waiving early refill limits on 30-day supplies of maintenance medications. This means you can grab an extra supply now and not worry about running out of medication over the next few weeks.

Skip the Waiting Room

Horizon is currently waiving all deductibles, copays, and coinsurance for their telemedicine service. This provides a great option for members who are experiencing a minor medical condition and wish to seek treatment without leaving their house. This service provides access to board certified medical providers 24/7 and can be reached at (888) 624-3096, through the company's free "Horizon Blue" app, or through the horizonblue.com online portal.

Where can I find additional information?

Horizon has created a dedicated website containing up-to-date information about their response to COVID-19. This information can be found at horizonblue.com/covid19.

For additional resources on the COVID-19 virus we recommend visiting the [Centers for Disease Control and Prevention](#), the [U.S. State Department](#), the [World Health Organization](#) and the [PA Dept. of Health](#) to access the most up to date resources and information regarding this rapidly changing situation.

What if I still have questions?

As always, we encourage you to call your Exude Client Care Specialist with any questions related to your benefits. Exude's team is available 24/7/365 and has taken measures to ensure proper coverage during this time.
